

K-Love has been a blessing to me daily, because it lifts my spirits and keeps me spiritually encouraged. It would be detrimental to myself and other listeners if K-LOVE was displaced, because it is relied upon by many believers of the Christian faith as a source of encouragement. K-Love's services that it provides is most definitely in the public interest, because the listeners have someone to contact when in need without a cost to the listener. It also provides information to the listeners about activities of interest in the local areas that they are broadcasted to. Displacing K-Love would be removing a great source of information to their listeners. It is also great to know that even when you travel throughout the USA, you can find a piece of home in other areas. Thanks for providing me the opportunity to share my comments.
